PROFESSIONAL SUMMARY

I am a dedicated and responsible individual with strong problem-solving skills and a willingness to learn and grow. I have a good understanding of modern technologies and I am able to work both independently and as part of a team. I am organized, detail-oriented, and committed to completing tasks efficiently and on time. I am looking for an opportunity to apply my knowledge, improve my skills, and contribute positively to the success of an organization.

EDUCATION

2020
St. Thomas'College Bandarawele

Ordinary Level (O/L)

Completed General Certificate of Education Ordinary Level with a strong academic foundation in core subjects, including Mathematics, Science, and English, demonstrating consistent performance and discipline.

2023 - Present
Java Institute for Advanced Technology

BSc (Hons) in Software Engineering

Currently pursuing a Bachelor of Science (Hons) in Software Engineering, focusing on software development, programming principles, database systems, and modern application development technologies. Gaining both theoretical knowledge and practical experience through academic projects and hands-on development work.

TECHNICAL SKILLS

Programming Languages
Java, JavaScript, PHP

Frontend Development
HTML, CSS, Bootstrap, Tailwind CSS

Backend Development
Spring Boot, Java Swing

Mobile Development
React Native

Database
MySQL

ORM (Object Relational Mapping)
Hibernate, JPA

API Development
RESTful APIs, JSON, XML

Cloud Technologies
AWS (Basic Knowledge)

Tools & Version Control
IntelliJ IDEA, Eclipse IDE, Visual Studio Code, NetBeans, Git, GitHub

PROJECTS

Room Booking System (Java)
Developed a desktop-based Room Booking System using Java. Implemented backend logic, booking management features, and system workflows. Used Java Swing for the user interface and MySQL for database management.

Student Portal System
Developed an interactive student portal using JavaScript, PHP, HTML, CSS, and Bootstrap. Included features such as user interaction, data handling, and dynamic content management.

E-Commerce Web Application
Built a web-based e-commerce system with responsive design and full frontend-backend integration. Focused on user experience, product management, and database operations.

Web-Based POS System
Developed a fully responsive POS system compatible with all devices. Implemented product handling, sales processing, and user interface optimization using modern web technologies.

Mobile Application (React Native)
Developed cross-platform mobile applications using React Native. Integrated with Java backend APIs and MySQL database for data management.

SOFT SKILLS

Problem Solving, Teamwork, Communication, Time Management, Quick Learning, Adaptability

EXTRACURRICULAR ACTIVITIES

- Active badminton player with experience in competitive and team play
- Developed discipline, focus, teamwork, and time management through sports participation
